

Lencolo 2101 Silicone Defoamer

Description

Lencolo 2101 is a foam-breaking polysiloxane solution with strong defoaming and anti-foaming abilities.

Technical data

| | |
|-------------------|-------------------------------------|
| Component | Foam-breaking polysiloxane solution |
| Appearance | Transparent liquid |
| Specific gravity | 0.87 |
| Active ingredient | 3 |
| Solvent | Alkylbenzene, isobutanol |

Performance

Strong defoaming ability and anti-foaming ability.

Applications

Polyurethane coating, nitrocellulose paint, paper coating, floor coating, spray wood coating, etc.

Usage

It should be added before grinding. If added at a later stage, sufficient shearing force is required to disperse evenly. Addition proportion: 0.1 ~ 0.7% of the total amount
Users are advised to determine the best addition amount through experiments before use.

Storage

This product will be functional for 6 month as long as storing under normal temperature and keeping away from heat and light. This Product will be packed into 25kg/drum.

Tips:Lencolo 2101 is particularly suitable for defoaming PU wood paint.
