

Lencolo 8716 Wrinkle Texture Additive

Description

Lencolo 8716 Added in the final stage of dilution or toning stage, it can show the three-dimensional effect of fine patterns. Applied to aluminum paste alkyd baking paint system and oxidative drying blend paint system, both have fine pattern three-dimensional effect

Technical data

Component	High molecular polysiloxane compound
Appearance	Transparent liquid
Active ingredients	10±2%
Density (g/cm ³ , 25°C)	0.95

Performance

It can make the hammer pattern of aluminum powder paint uniform, exquisite, and have a strong three-dimensional effect. And because its molecular chain structure is quite stable, the pattern will not change greatly during storage

Applications

Solvent-based aluminum powder paint system baking paint, mixed paint, spray paint

Note: Test the compatibility of the product and the system before use.

Usage

In the final stage of paint mixing and toning, it is necessary to add a smaller amount for bigger texture, and a larger amount of small texture.

Add to the full amount: 0.05-0.5%

Storage

To prevent the product from polymerization and gelling, please keep it sealed and away from heat and light. Recommended storage temperature is not higher than 30°C. Unused products must be sealed and stored in a timely manner and cannot be stored in the open. Safe storage time is 6 months at room temperature(25°C) and under ventilation. 25KG/200KG/drum

Tips: Lencolo 8716 is mostly used in PU and baking paint systems, and can also be used in water-based systems.
