

SQ-720545

Roller-coated Adhesion UV Primer with Sanding Capability

Description

SQ-720545 is a sanding roller primer with convenient construction method and excellent adhesion to wood materials. It has good initial yellowing, fast curing speed, is easy to sand, does not stick to sandpaper, has excellent flexibility and good interlayer adhesion.

Technical data

Viscosity (mPas/25°C)	1500-2000
Appearance (Gardner)	Slightly yellow opaque liquid
Solid content%	100%
Acid value (mg KOH/g)	≤3
Pencil hardness	4B-3B

Performance

Excellent adhesion to density board, technical wood, solid wood and other wood materials

Fast curing speed, easy to sanding, good interlayer adhesion

Excellent initial yellowing resistance

Applications

It is recommended to be used in roller coating UV primer for wooden furniture panels, wooden floors, wooden doors, baseboards, etc.

Storage

To prevent the product from polymerizing and gelling, please seal it and store it away from heat sources and sunlight. Under normal circumstances, the safe storage period is 6 months.

20KG/200KG/.....
